EDUCATION:

Angadi Institute of Technology and Management   **November,2021 − 2025 Jun**
*Bachelor of Engineering in Computer Science Engineering-**CGPA-7.8***   *Belagavi, Karnataka.*

Kittel PU Science College, Dharwad.   **April 2020 − June 2021**
*Intermediate - **Percentage − 77.76%***   *Dharwad, Karnataka.*

VDGB High School, Hirekumbi.   **April 2018 − June 2019**
*High School - **Percentage − 81.16%***   *Savadatti, Karnataka.*

PROFESSIONAL SUMMARY:

Full Stack Developer with hands-on experience in building responsive frontend interfaces using React and Axios, and backend APIs with Java, Spring Boot, and MySQL. Skilled in version control (Git), API testing (Postman), and familiar with full-stack workflows using MVC architecture and OOP principles and Multithreading.

PROJECTS:

- **Developed a Food Delivery Web Application** using **HTML, CSS, JavaScript, JSP, Servlets, Hibernate, and MySQL**. The app includes features like restaurant listing, menu browsing, cart management, user login, and order tracking, built using the **MVC architecture** for better structure and maintainability.
- **Developed an interactive HTTP Status Code Generator** using **HTML, CSS, JavaScript**, and **Spring Boot**. Integrated with the **http.dog API** to allow users to search and view HTTP status codes with corresponding dog images. Implemented **JWT-based authentication** in the backend to ensure secure access and session management. [link]
- **Built a simple full-stack web application** using **React (frontend)** and **Spring Boot (backend)**. Utilized **Axios** for seamless communication between frontend and backend, enabling data submission and retrieval. Designed secure API integration with structured request handling.
- **Tested Student Management REST APIs** using **Postman**, performing full **CRUD operations** (GET, POST, PUT, DELETE) on Spring Boot endpoints to validate functionality, ensure data integrity, and verify proper HTTP responses.

INTERNSHIP:

Tap Academy – *Java Full Stack Developer **Intern***   ***Feb-Present* 2025**
Project: Online Food Delivery Full Stack Web Applications (End-to-End)   **Bengaluru, Karnataka**

ROOMAN Technologies AI-Machine Learning Engineer ***Intern***   ***Sep-Feb* 2024**
Project: Customer Journey Analysis using Clustering   **Belagavi , Karnataka**

EyeSec Cyber Security   Ethical Hacking ***Intern***   ***Oct-Dec* 2023**
Project: Password Cracking System using SHA256 algo   **Belagavi , Karnataka**

TECHNICAL SKILLS:

Technologies

Frontend: React.js, Tailwind CSS, HTML5, CSS3, JavaScript, JSP, Axios.
Backend: Core Java, JDBC, Spring Boot, Spring MVC, Spring ORM, Hibernate, Microservices,
Lombok features.
Database: MySQL, PostgreSQL, SQL, DBMS
Languages: Java, Python, C.

Developer Tools: VS Code, Eclipse (Java/Web), Python IDE, MySQL Workbench.
Postman, Git, GitHub.
